

DIMENSIONS

- Aluminum eyes Ø 12 mm

CHARACTERISTICS

- Tensile strength: 450 / 200 N/5cm
- Tear resistance: 60 / 60 N
- Temperature resistance: -40/+80°C
- Density: 150 g/m²
- Shade factor: 55%
- Wind transmission: 12%
- Material: HDPE
- Anti-UV treated
- 1 ring in each corner
- Edge reinforcement all around
- Also available:

118-170	white
118-185	green
118-200	blue

Attachment of the construction fence net to a construction fence is at your own risk. This affects the wind load on the fence and can have negative consequences. Bracing is necessary when using construction fencing.

Tolerance of +/- 10% to the stated sizes.
